Electricity Efficiency Has Its Rewards For Laurel County Grocery Wholesaler

rows of lights automatically cascade from dark to bright white, illuminating the roadway of concrete aisles that traverse the wholesale grocery warehouse. This newly-automated transition from darkness to illumination has Laurel Grocery officials seeing savings.

"The lights are on 1,000 hours less a month than they were before," Mark Schwinn, Vice President of Distribution, remarks as he points to a row of overhead fixtures beaming to life.

Motion-activated sensors are part of a lighting upgrade undertaken by the company, with some help from their electric cooperative, Jackson En-

According to the U.S. Energy Information Administration, lighting accounts for about 25% of the electricity used in a typical warehouse. Cutting that usage can result in significant savings. A \$12,000 rebate from Jackson Energy offset the costs of the upgrades, making the project even tive. more affordable.

less than two years, the energy savings will pay for our investment," Schwinn says, with a hint of satisfaction in his voice as he recounts the projec-

Jackson Energy's Todd Claiborne worked with Laurel Grocery on the project. "The energy savings helped the company qualify for a commercial lighting rebate offered through our wholesale power supplier, East Kentucky lic Relations, Jackson Energy Cooperative

Government lighting standards call for the phase out of incandescent lighting in favor of energy-efficient fluorescent and LED fixtures for both homes and businesses.

"The project resulted in such unbelieveable savings," adds Winston Griffin, Laurel Grocery Vice Chairman & CEO, "that we couldn't afford not to do it." Jackson Energy and East Kentucky Power have returned more than \$30,000 in lighting rebates to area industries and schools to help them lower their electric bills.

The lighting rebate is just one of the energy efficiency programs the cooperative offers to members ranging from industries and schools to residential and small commercial customers.

Energy efficiency upgrades not only lower monthly costs for businesses and homeowners, they also lower expenses for the electric coopera-

"Using less energy is a win for the co-op mem-The company replaced 423 fixtures with fluorescent lights that use about 50% less energy. "In President & CEO Carol Wright. "Lower monthly bills mean lower demand for electricity. Less demand helps us reduce our operating costs."

For more information on rebates, visit www. jacksonenergy.com, or call 1-800-262-7480. Jackson Energy is a Touchstone Energy Cooperative serving 51,000 homes and businesses in Southeastern Kentucky.
