Maudie's Naughties

Taxi Driver

A taxi cab is parked in front of a bar when Trixi, Bambi and a friend come running out and jump into the back seat, telling the driver they need a ride downtown. The taxi driver notices they are wasted and just wants them out of his cab before one of them gets sick. So, he starts the motor and lets it run a few minutes, then switches it off and says, "We are here," hoping neither will realize that the cab hasn't moved an inch.

Trixi gets out of the cab and thanks the driver. Their friend gets out of the cab, thanks the driver and gives him \$20.00. Bambi gets out of the cab, slaps the crap out of the driver and says, "Next time, watch your speed. You nearly killed us!"

Trapped!

Trixi, Bambi and their friend decide to spend the night in a hotel. The next morning the desk clerk gets a call. It's Trixie, crying hysterically, saying, "We can't get out of our room!"

"Why not?" the clerk asks. "Is the door stuck?"

Trixie sobs, "It has a sign on it that says 'Do Not Disturb!'"

Everything But The Kitchen Sink

As they approach the line at the airport, the husband glances at the pile of luggage and says to the wife, "Why didn't you bring the piano, too?"

"Are you trying to be funny?" she replies.

"No," he sighs. "That's where I left the tickets."

Here To There

Trixie is planning a vacation, so she calls up the airport and asks, "How long does it take to fly from Lexington to Las Vegas?"

The busy attendant says, "Just a minute, madam . . ." and lays the phone aside.

"Wow," says Trixie, as she hangs up the phone. "They make planes faster every year."

Dental Pain

A dentist, after completing work on a patient, comes to him and asks, "Now, can you let out your biggest scream?"

The surprised patient says, "Why doctor, it wasn't that bad!"

The dentist says, "Yeah, but I've got a full waiting room, and my son is expecting me at his ball game in about 45 minutes."

Seeing Double

"Doctor," says Ed, "I'm seeing double!"

"Let me look at you," says the doctor. "Sit down on that chair!"

"Which one?" replies Ed.

Overheard In A Doctor's Office

"That's my 3-IN-ONE® Oil. I put it on everything!"

The Sky Is Falling

One day the first grade teacher is reading the story of Chicken Little to her class. She comes to the part of the story where Chicken Little tries to warn the farmer.

She reads, ". . . and so, Chicken Little goes up to the farmer and says, 'The sky is falling, the sky is falling!'"

The teacher pauses, then asks the class, "And what do you think that farmer said?"

One little girl raises her hand and says, "Holy Crap! A talking chicken!"

Is It True?

Junior asks, "Is it true, Pa? I heard that in some parts of the world a man doesn't know his wife until he marries her."

"That happens here, too, son!"

Men Are Like A Pack Of Cards

You need . . .

- A "heart" to love them
- A "diamond" to marry them
- A "club" to smack them and
- A "spade" to bury the body . . .

VOTE
Rhonda Hardy
for
School Board District 2

I would like to humbly ask for your vote on November 3rd as we continue to move our school district forward. The students and staff will always be our first priority to allow them to succeed. We will work together to continue to make improvements to our schools and facilities as our community deserves the very best.

We find ourselves in unique times, but the commitment to our children and staff will always be what is most important. Please allow me to continue work to move our district forward to be the best.

I would appreciate your consideration and vote.

Breast Cancer Early Detection

Nearly one in eight women will be diagnosed with breast cancer in her lifetime. That's why this October, National Breast Cancer Awareness Month, Mercy Health - Marcum and Wallace Hospital is focused on raising awareness for the most effective weapon in the fight against breast cancer: mammograms.

A mammogram is an X-ray of the breast that is safe, highly accurate, and can be completed in as few as 15 minutes. The technique has been around for more than 50 years and is used to look for breast disease in women who appear to have no breast problems.

Annual mammograms play a critical role in the prevention, early detection and treatment of breast cancer. Marcum and Wallace Hospital expanded radiology services in 2017 with the addition of 3D mammography, the newest screening and diagnostic technology for breast cancer detection. The funding for 3D mammography was provided by Mercy Health Foundation Irvine.

"While breast cancer affects people throughout the year, October has been marked as breast cancer awareness month. It's used as a reminder to make sure women are keeping up with preventative and early detection measures," said Marcum and Wallace Hospital Director of Radiology Sharon Whitaker. "It is so important for women to get their annual, screening mammogram, it could save their life. Education is key. Know your risk factors, perform a monthly breast self-exam and have a clinician perform an annual breast exam."

Scheduling a mammogram at Marcum and Wallace Hospital is convenient. Speak with your healthcare provider about a mammogram referral or call to make the appointment yourself. Take advantage of extended hours with appointments as late as 6 p.m. on "Working Women's Wednesday." A gift will be given to all women who get their mammograms in October (while supplies last). Call 606-726-2106 (option 1) to schedule your mammogram today.
