Power of a Storm

I pulled into my driveway a few nights ago during a lightning storm. It was the kind of lighting that streaks across the sky. It would light up the night. I got out and leaned up against the truck and watched the show.

The power of a storm is just awesome. A storm can destroy. The wind can snap trees. The thunder shakes the ground. The lighting can start fires. Us humans have zero control over a storm.

As I sat and watched the storm build, I knew I couldn't do a thing to stop it or slow it down. As the storm built I knew who was and is in control. The power of who is in control is amazing. God is in control of everything. Watching a storm is one way to see he has the ultimate power.

The world is on fire right now. The world is in such a disarray that its considered discrimination if a man is not allowed to use the lady's rest room. The police are being demonized while criminals are being glorified. God has been all but kicked out of America.

As the world burns, God's storm is coming to put out the

fire. He will not put up with what is going on very much longer. His storm will clean house. The Bible tells of His second coming. It talks about 7 years of tribulations. Those left behind are going to feel the full force of his storm.

I know without a doubt the Lord is going to come back. I feel like it will be sooner than later. If you don't know the Lord, now is the time to get to know Him before it's too late.

Matthew 7:24-27: "Therefore whosoever heareth these sayings of mine, and doeth them, I will liken him unto a wise man, which built his house upon a rock: ²⁵And the rain descended, and the floods came, and the winds blew, and beat upon that house; and it fell not: for it was founded upon a rock. ²⁶And every one that heareth these sayings of mine, and doeth them not, shall be likened unto a foolish man, which built his house upon the sand: ²⁷And the rain descended, and the floods came, and the winds blew, and beat upon that house; and it fell: and great was the fall of it."

What is your house built on? Where will you be after the storm ends?

Until next week, get out and enjoy God's creation!

Lady Engineers Sweep Powell, Gain #1 Seed

Estill wins both games of rare "home and home" doubleheader

by MIKE WISEMAN
Estill Tribune Sportswriter

The Lady Engineers Softball team would gain a #1 seed in the upcoming 56th District Tournament with a double header sweep of Powell County on Thursday night. An unusual Home and Home set of games would be used to make up the weather cancellations. The first game would see Estill travel to Stanton and after that game, the teams would load up their buses and head over to Irvine to finish the doubleheader.

Estill 4, Powell 1

The opening game would be a tight affair with Estill holding a slim 1-0 lead into the sixth inning on the strength of a Taylor Wiseman solo homerun. In the top of six, Estill would plate three runs on a Zoe Deaton 2-rbi single and a Haley Bishop sacrifice fly to give themselves some breathing room. The Ladies would give up a single run in the seventh but go on to win this one, 4-1. Sarah Wiseman would smack out two hits including a double while McKeely Muncie, T. Wiseman, Deaton, Abby Winkle, and Bishop would all add hits to the box score. Muncie would twirl a beauty from the mound giving up only 4 hits and striking out 5.

Estill 12, Powell 1

In the second game back at JL Thomas Field, Estill would use a five run first inning to put this one away early. Muncie would smash a homerun of her own in this one and A. Winkle and Hayley Puckett would drive in five runs with their two hits each. Muncie would only give up 4 hits in this one as well and Estill would win 12-1 in five innings.

Garrard 1, Estill 0

On Friday night, Estill would travel to Garrard County and try to avenge an earlier loss this year. The Lady Engineers bats would almost be silent in this one as they collected only 4 hits on the night. This pitching duel would see Kaylee Covey end up on the wrong side of the win/loss column as a 6 hit- 8 K outing was wasted. Garrard would score the only run of the game on an infield popup single and a double in the third inning and Estill would fall 1-0.

Estill 6, GRC 0

A warm day on Saturday would see Estill hosting George Rogers Clark and Rockcastle Co. in the Lady Engineer Triangle. Estill would take on GRC in the first game. Seven Lady Engineers would get hits in this one and Muncie would

hurl a 2 hit shutout while striking out nine and Estill would come out on top by the score of 6-0.

Rockcastle 6, Estill 1

In Estill's second game of the day, their bats would go silent again as Muncie and Winkle were the only Lady Engineers to get hits. Covey would get the loss as she gave up 7 hits and 3 earned runs in 2 2/3 IP. Estill would see their record go to 14-8 with a 6-1 loss.

E. Jessamine 10, Estill 0

Monday night would see Estill travel to Nicholasville to take on East Jessamine, a top 5 team in the state. Meeke and T. Wiseman would get 2 hits each in this one but East's bats were too strong for the Lady Engineers as they pounded out three "no doubters" and would send Estill home after five innings by the score of 10-0.

Senior Night

Tuesday night was Senior Night at JL Thomas Field as we celebrate Estill's five seniors: McKeely Muncie, Zoe Deaton, Sarah Barnes, Haley Bishop, and Hayley Puckett. Congratulations Seniors and the best of Luck to you as your future unfolds!!!! Estill took on Montgomery County.

Upcoming Games

On Wednesday night, Estill will host the Lady Indians from Madison Central for the regular season finale.

Next weeks action will see Estill traveling to Wolfe Co. on Monday night for a tough regional game and then traveling to Breathitt Co. on Tuesday night.

Come out and support the 2016 Lady Engineers as they go for 11 in a row!!!! GO BIG BLUE!!!

Grandparent of the Year!

It's time to choose this year's AARP Grandparent of the Year! I know who should win it, too! She's a really, really awesome grandma. Her name is Sharon Manning, Winkle, and Bishop would all add hits to the box score. Muncie would twirl a beauty from the mound giving up only 4 hits and striking out 5.

ice cream and cheers me up. Another reason by mammaw should win the AARP Grandparent of the Year award is because she spends a lot of time with me. When I go to visit her, we play with her dog Churchill in her yard. She also plays board games with me such as Rook, Sorry, and Operation. We always cook and do crazy experiments and we both had a really good time! I love spending time with my mammaw. It's so awesome.

The first reason that my mammaw should win the AARP Grandparent of the Year award is because she takes care of me when I get hurt. If I ever get hurt she doctors me up and also tries to cheer me up. For example, she gives me ice cream and she tries to make me laugh. It feels so good when she gives me

Finally my mammaw should win the AARP Grandparent of the Year award is because she puts the family before herself. She always tries her best to make the family happy if I'm down in the

dumps. She'll even let me spend the night with her even though she's feeling bad. Once my mammaw had a head and stomach ache and she still let me and my mom spend the night with her. We even went to Golden Corral and ate. My mammaw always puts the family before herself!

I hope you choose my mammaw for the AARP Grandparent of the Year! She deserves it for all the reasons I've listed and may more too! She is incredibly deserving of this award. The AARP could not make a better choice than my grandma Sharon Manning.

No Dryer Lint
Don't use dryer lint for nesting material. Dryer lint is actually very harmful to birds. It is very dusty, which can affect birds' respiratory systems, and it becomes hard and scratchy when it gets wet. Please don't use it. It's just not a good thing.

Name That Bird
When learning how to identify birds, things to look for are: Is the tail long or short, or is it cocked like a wren's? Does it have a crest like a cardinal or wing bars like a goldfinch? A field guide can be helpful, too. Good luck!
