Stickeler's Answer

Stickelers Answer
Consider line ED to be X - 4 and line FB to be X - 5. Then the area of GCHI is:
 $(X - 4) \times (X - 5) = X^2 - 9X + 20$

Advertising Globally, But Locally Owned And Operated

Community Health Worker

University of Kentucky
Community Health Worker
Rural Kentucky Health Care

This position will be located in Madison, Estill, or Powell County.

Community Health Workers (CHW) is now a more complex position which is now nationally recognized. In addition to acting as a client advocate and liaison, the CHWs now play a significant role in research by recruiting specific clients for research projects and working with them throughout the study. CHWs also provide care coordination to assist patients in reaching a healthier lifestyle while managing their chronic disease states. This position has one-on-one interaction with patients in order to provide services to at-risk clients and families.

The CHW assesses patients' needs for health coverage, self-management health education, makes referral recommendations and assists in accessing services as appropriate. The CHW advocates on behalf of the patients and/or families to health and human service providers and agencies.

The CHWs complete home visits as needed. This position will work in what we have determined to be Region 4 and includes Madison, Estill and Powell counties. The home office will be located in one of these counties.

Requirements for this position are High School Diploma or GED and one year of related experience.

To apply, please submit an online application to requisition number RE08035 at: <https://ukjobs.uky.edu>. Contact HR Employment for questions at: (859) 257-9555, option 2. Application deadline is July 24th, 2016.

The University of Kentucky is an equal opportunity employer and encourages applications from minorities and women.
