

# Golf Team Wins Regional - Going to State

Continued from FRONT

Isaac Napier one of Estill's three freshman placed an impressive 6th in the region with a score of 77.

Last year they placed third in region and missed going to state tournament by three strokes. They made up for that loss this year. The team competes in the state tournament in Bowling Green, next week, on Tuesday, October 3rd.

The last time Estill's boys team won the golf region was in 2014 and that year was their third time in a row to win the region. This young team could tie that record or possibly break it. They are a young team but have what it takes to compete with the big boys. They missed going to state tourney by three strokes

last year, as a freshman and three eighth graders, but this is a competitive fun young group of boys that will be making noise in golf region for several years to come.

Good luck to our one-man, sophomore Joe Benton, who has qualified for state as an individual for the last several years, winning 3rd in region last year and placing in the top 35 golfers in state tourney last year. He has won many of our tournaments this summer and fall.

Good luck to our two-man, freshman Isaac Napier, who has won some tournaments this summer and fall and placed in others. He has really done well this year

Good luck to our 7th grader, Kade Benton, who has done well this year in

regions, competing for first time. Last year at region, his appendix ruptured and he spent day in hospital up there, having surgery.

Good luck to our two other freshman, Cobbe Click and Andrew Elam. You guys can do it.

Good luck to our coach Ricky Joe Benton, hopefully this will start at least a three year run of taking Estill's golf team again to state tourney. We need to tie the record set by Travis Adams, Andrew Farmer and Phillip Webb, a few years ago, winning golf region three years in a row.

Go Estill. "Engineer one, Engineer all. let's all give our Engineer call."

# Marching Engineers sweep class AA and score 'Distinguished' at Pulaski

This past weekend the Marching Engineers traveled to Pulaski County High School to compete in the third contest of the regular season. During their preliminary performance, the band fought through the excessive heat to deliver a decent show, considering the conditions. This effort was good enough to earn them best percussion in class AA, best color guard in class AA, and another

1st place finish in class AA. This also earned them a performance spot in finals competition that evening. After a few tweaks, and much cooler conditions, the band gave their best performance of the season and scored an 80.15, giving them a distinguished rating! The band will travel to Morehead State University this week to compete in the Blue and Gold Festival of Bands.
